

Task ID - 304

! Attorney to Provide Assistance with Filing a Civil Rights EPA Title VI Complaint

Available

Description

Anderson Community Group, a grassroots organization fighting for environmental justice, requires legal assistance with filing a Civil Rights EPA Title VI Complaint by circa March 15th. The complaint would oppose the approval of the Burlington North Air Permit in October 2021. Notably, Caswell County and the NC Department of Environmental Quality overlooked a health survey, conducted by the UNC School of Public Health, that determined that the permit threatened a predominantly black community made up of many low-income, elderly, and/or sick residents. By doing so, Caswell County violated their HIDO (High Impact Development Ordinance) and NC DEQ chose not to follow Subchapter 01C that allows them, once they receive the scientific document, to halt the exploitation of residents' health.

Time sensitive: Yes

Location: Burlington, Alamance and Guilford, North Carolina
