### **Description**

Org 72 was formed in Georgia in January 2016. They tackle issues such as mental health, food insecurity, environmental injustice, neighborhood cleanups, and more. They service women, students, and young adults through various programs that provide engaging and educational experiences. Two of their programs include providing international travel opportunities to students and creating pathways for high schools students to learn their options for college by shadowing college students. All their events uplift voter engagement.

Org 72 is at the beginning of process to formalize their nonprofit and become a 501c3. Org 72 seeks an attorney to assist them with every step of the process (obtaining EIN #, filing state docs, Board governance, etc.) and filing their 501c3 paperwork.
