Description

BAJI, for the last several years, has been engaged in FOIA litigation with DHS regarding race data for 8 ICE detention centers in the southern part of the United States. As a result of litigation, DHS is now submitting large document productions to BAJI. These documents need to be reviewed and analyzed to assist BAJI in making the case to the government that it should be collecting race data and other related data. BAJI - The Black Alliance for Just Immigration - educates and engages African American and black immigrant communities to organize and advocate for racial, social and economic justice. The information gathered from the FOIA will be analyzed and a report drafted for advocacy and other purposes.
