Description

BAJI provides publicly available legal education resources, including PowerPoint presentations and one-pagers, that provide important information about specific immigration law topics and highlight how these topics impact Black migrants.

Over the past several months, volunteers have made substantive edits to the existing one-pagers. BAJI is now in the final stage of review before publication and translation.

BAJI seeks fact checkers to review and, if needed, edit and/or update the substantive information of the one-pagers.

Interested volunteers must express their interest by Friday, April 3 by signing up here.
